

AI-Assisted Brain MRI Diagnostic Report

Report ID	e205109c
Date	2026-02-21 10:09:32.838564
Model Version	BrainTumorClassifier v2.0
Scan Type	Brain MRI

1. Diagnostic Summary

Primary Classification: meningioma_tumor

Model Confidence: 99.96%

AI Risk Stratification: High

2. Probability Distribution

Tumor Type	Probability
glioma tumor	0.03%
meningioma tumor	99.96%
pituitary tumor	0.0%
no tumor	0.0%

3. Clinical Interpretation

Imaging features are consistent with meningioma_tumor. Further clinical evaluation recommended.

Recommendation:

Neurologist consultation and contrast-enhanced MRI advised.
